Numicon

Numicon is a multi sensory maths resources using imagery, models and signs to raise mathematical achievement.

Develops **fluency** by using a visual, practical base to develop conceptual understanding and fluent recall.

Helps children to **reason mathematically** through the use of concrete objects and **spoken language** to explain and justify.

Develops children into confident **problem-solvers**.

Numicon

- ❖ Quality first learning
- ❖ Progressive
- ❖ Inclusive
- ❖ Children can:
- ❖ Understand number relationships
- ❖ Do calculating without counting
- ❖ Learn mathematical language in context
- ❖ Make connections to use and apply their understanding

Numicon

- * Can you put the Numicon shapes in order from 1 to 10?

- * Why do some pieces have 'sticking out bits'?

Number Bonds to 20

- * Make a teen number using a ten and a single digit number. How many more to get to Twenty?
- * What is ten more?
- * What is ten less?

$$6 \times 4 = 24$$

Odd numbers

- * Investigate times tables 3, 5 and 7 ask child;
 - * What pattern do you notice?
 - * Do you think this pattern will continue? Why?
 - * Can you prove it?
-
- * The same could be done for times tables with even numbers.
-
- * Creating links all the time help children to recall the information.

Parents Resources

- * www.numicon.co.nz
- * There are lots of **free** resources online using the above website, including resources to print, activities etc.
- * If you feel you would like to purchase Numicon for your child at home we can offer two different resources:

* Box 1-10 shapes	-	£ 4.50 + VAT
* Maths Homework Bag	-	£13.50 + VAT
